Air Grinders with Collets

Angle-Head Design - Power Output:
130 W, 300 W, 700 W (.17 / .40 / .94 HP)

- highest power output at a low weight
- ergonomic
- highly durable

Our grinders with collets are especially well suited for the precision grinding with grinding tips and for fabricating using carbide cutters.

Ergonomic, low-weight and suitable for numerous application cases - in the tool-, die-, and mold making-industries or in small industrial areas.

These grinders efficiently allow the fabrication of plastics, metals and casting - even when using these tools in 24/7 operations.

The best tools for efficient material removal

High power output at a low weight

All DEPRAG Industrial grinders excel through their compact design while simultaneously achieving a high power output. Especially when used with carbide cutters, these tools offer a powerful solution.

Ergonomic

The ergonomic design of the handle and the surface treatment of the grip allows a continued and low-fatigue operation.

Highly durable

A robust construction assures the high longevity of your tool - even when used in continued- and mass-fabrications.
